INFORMATION DISCLOSURE STATEMENT

Sir:

Pursuant to 37 C.F.R. §§1.97-1.98, the undersigned would like to make the following prior art references of record in the above-identified patent application. The undersigned believes that some or all of these references may be material to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 C.F.R. §1.56.

While this Information Disclosure Statement may contain material information pursuant to 37 C.F.R. §1.56, it is not intended to constitute an admission that any individual reference referred to herein is prior art to the invention disclosed and claimed in the above-identified patent application.

Each reference listed herein may be accompanied by an explanation of its relevance.

While this explanation is believed to generally reflect the contents of the references which the undersigned believes a reasonable examiner might consider relevant and material to the examination of the above-identified patent application, it is not intended that the examiner rely on the description as unfailingly accurate or complete. A copy of each reference is enclosed for the express purpose of providing the examiner with an opportunity to perform an independent evaluation to arrive at an independent assessment of its relevance and materiality, if any, to the claimed subject matter.

STATEMENT UNDER 37 CFR 1.97(e)

The undersigned declares that either each item cited in this Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign patent application not more than three months prior to the filing of this Information Disclosure Statement, and that, to the knowledge of the undersigned after reasonable inquiry, no item of information contained in this Information Disclosure Statement was known to any individual designated in §1.56(c) more than three months prior to the filing of this information disclosure statement. This IDS is a duplicate of an IDS filed last week, but includes this certification because the IDS filed last week was filed without the realization that an office action has already issued in the above identified case. Since the IDS filed last week was filed without a fee, it is being resubmitted herewith with the certification under 37 CFR 1.97(e) to avoid paying the fee since EPO search report was issued only on 25 May 2005 so this submission is well within the three month grace period.
